From The President

Dear Friends,

Since the first day the world was created, billions of people have been affected by disasters and wars. Millions of people living in oppressed regions struggle to survive by coping with many problems such as food, health and drought.

As **Just Human International Aid Association**, we continue to stand with millions of people struggling to survive in oppressed geographies. In 2024, we continued the journey of goodness we started in 2012 without slowing down.

Thanks to our valued donors, we provided aid in Türkiye, Palestine, Philippines, Bangladesh, Uganda, Kenya, Lebanon and many other countries. We held the hands of hundreds of thousands of brothers and sisters in more than 40 countries. In 2025, we will strive to hold the hand of every oppressed person on earth with the slogan 'Working for a Better World'.

Vakar ALİZADE
President

Who Are We?

Just Human International Aid Association was founded in 2012 by a group of philanthropic friends who wanted to bring their aid activities to more countries and people in different parts of the world.

Our founders, who believe that one of the most important contributions that can be made to humanity is education, started their aid activities by prioritizing scholarships, clothing, shelter and stationery needs of students who have financial difficulties during their school life.

Since 2019, our association has begun to receive financial support through cooperation with national and international institutions and organizations and has carried its activities beyond the borders of our country. It has carried out projects in different regions of the world within the framework of the main goals of the United Nations (UN) Sustainable Development Plan.

Our association, which has completed its institutionalization efforts in a short period of time, provides assistance to those in need in the fastest possible way by organizing quickly through its project partnerships in the international arena. We continue to carry out our aid projects in the areas of emergency aid, shelter, education, food, income generation, protection, health, clean water and sanitation with our expert and experienced professional teams at our headquarters.

Just Human International Aid Association, which is setting an example in international platforms with its aid activities under the name of Just Human, is working to provide humanitarian aid to anyone who is suffering in any geography of the world without discrimination of religion, language, race and sect and who has been victimized by reasons such as war and natural disasters. With the efforts of all our employees, volunteers and philanthropists, our association carries out aid activities especially in our country and continues its projects without slowing down as Türkiye's kindness movement open to the world in more than 40 countries.

Our Mission

Our mission is to be a balm to the wounds of people in need who live in different regions of the world and are deprived of their basic human needs. To provide the best benefit to every person in need that we can achieve. To create projects for people who are deprived of their basic rights to have their rights.

Our Vision

Our mission is to provide lasting solutions to people who are struggling to survive due to war and natural disasters, on this path we set out with the motto “Just Human”. To empower communities in need. To quickly reach the region in times of crisis and provide direct assistance to the affected people. To be pioneers and leaders in our aid efforts.

Our Areas Of Activities

Emergency Aid

As a result of natural disasters and extraordinary developments, we come to the rescue of people in need of emergency aid, victimized children and anyone struggling to survive in difficult conditions. Through our projects, we provide food rations, blankets, hygiene kits and medical equipment to those in need in the first moments of a disaster through our Emergency Aid Team (SAYEK).

EMERGENCY AID PROJECTS IN GAZA

• **Emergency Aid Project in Gaza:** 300 families and 1,500 people were targeted to benefit.

• **Hot Meal Distribution:** Hot meals were distributed daily to 1,000 people in Gaza.

• **Water Distribution:** Clean drinking water is regularly distributed in Gaza, which has no infrastructure.

• **Medicine Distribution:** Provided medicine to the needy and to hospitals in a region where access to medicine is difficult.

• **Fuel Distribution:** Provided fuel for hospital generators and ambulances in the region where access to fuel has become impossible.

• **Gaza Food Distribution Project:** 3,500 families and 15,000 people received comprehensive food assistance.

• **Warming and Shelter Assistance:** Firewood was provided to civilians trying to survive in an area under attack.

• **Egyptian Logistics Center:** Emergency supplies are transported daily to northern Gaza from our logistics center in Egypt.

EMERGENCY AID PROJECT IN SYRIA

• **Blanket Distribution Project:** Blankets were distributed to 6,666 people in need in Syria.

EARTHQUAKE AID

• **Hatay Earthquake Victims Winter Aid Project:** In 2024, winter aid was provided to earthquake victims who lost their homes in Hatay.

EMERGENCY AID FOR BANGLADESH FLOOD VICTIMS

• **Hot Meal Project for Flood Victims:** Hot meals were distributed to flood victims in Bangladesh.

EMERGENCY AID IN LEBANON

• **Lebanon Emergency Aid Project:** Provided aid to those affected by the humanitarian crisis in various regions of Lebanon.

Income Generation

The worst situation that can happen to a family trying to survive in difficult conditions is to be unable to meet their needs. Through our income generation projects such as grocery stores, convenience stores, beekeeping, fishing boats, agriculture, livestock, sewing machines, and many more, we offer families struggling to survive in poverty the opportunity to stand on their own two feet and continue to be a beacon of hope.

KENYA INCOME GENERATION PROJECTS

- **Bakery Construction:** 100 families and a total of 500 people will benefit from the bakery construction project, which will enable local people to earn an income by producing bread. This project aims to provide economic independence for families in the area.
- **Sewing Machine Distribution:** In Kenya, sewing machines were distributed to enable local people to start their own businesses and generate income. This project provided opportunities for economic independence, especially for women.

INCOME GENERATION PROJECTS IN AZERBAIJAN

• **Purchase of Tractors:** Tractors were provided to disadvantaged families in Azerbaijan's harsh living conditions. These tractors will enable people living in villages to transport products such as hay, logs, milk, and eggs to market and earn a living. This project aims to help families start their own businesses in areas where unemployment is high.

• **Cow Distribution:** Cows have been provided to orphaned and disadvantaged families in Azerbaijan. The families receive milk from the cows to make cheese and other dairy products for themselves and for sale. Since the cows give birth to calves once a year, the families can meet their own needs and improve their economic situation.

• **Chicken Distribution:** Through the distribution of chickens and chicken eggs, disadvantaged families in Azerbaijan will have the opportunity to become self-sufficient and generate income by selling their products. This project will help families become economically self-sufficient.

• **Lawn Mower Distribution:** By distributing lawn mowers, families living in rural areas of Azerbaijan will be able to mow their own fields and earn income by serving their neighbors. This project aims to improve the financial situation of families.

Food

Millions of people in vulnerable regions face malnutrition and hunger as a result of wars, natural disasters and other crises.

Food problems cause many crises, especially health crises, and disadvantaged people are at risk of dying from lack of food.

As Just Human International Aid Association, we deliver food parcels to the oppressed people struggling with hunger in different parts of the world, deliver sacrificial shares and build a bridge of hearts with İftaar and Suhoor tables.

• **Kajiado District:** The 150m^2 School Construction Project in Kajiado region of Kenya, which was initiated with the aim of benefiting 90 students, has been successfully completed.

Shelter Projects

Shelter is a basic need and a human right. The main reasons why people cannot fully exercise this right include factors such as war, armed conflicts, drought, forced migration, poverty and discrimination. In order to make this right visible and to eliminate or minimize the problems encountered, we are trying to reach millions of people waiting for help through our work in crisis regions.

For those in need who are deprived of a home to live in due to natural disasters, war and economic reasons, we establish temporary shelters, build houses and renovate existing houses when necessary.

SHELTER PROJECTS IN SYRIA

• **Afrin Social Housing Project:** In the Afrin region of Syria, 41 social houses were built for 41 families and 250 people. With this project, permanent shelter was provided to war-victim families in Afrin.
